INTRODUCTION

More so than ever before the spotlight is shining brightly on school attendance across the country, especially in California. With the transition to Common Core State Standards, school climate and engagement are critical areas in which Alhambra Unified School District continues to address.

This manual is designed to give school staff, teachers, and administrators a clear understanding of AUSD's attendance procedures and protocols. Also included within the manual is relevant information that all stakeholders can facilitate to insure their students are attending school and are engaged in the learning process.

The Division of Student/Employee Welfare, Gateway To Success will continue to be a resource for your needs as you navigate through the school year. Please continue to direct questions and concerns regarding student attendance to our offices by calling 626-943-3410 or emailing the appropriate staff member.
